Art Unit: 1625

Claims 33-39 are pending in this application.

Claims 1-32 are deleted.

Claim Rejections - 35 USC § 112

Claims 37-39 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The claims lack adequate support in the specification. The specification fails to disclose how people predispose to diabetes would be identified and treated before the occurrence of the disease. Also, the term "diabetes" embraces type I diabetes, a genetic disease, which is not preventable. By deleting diabetes and prevention the rejection would be overcome.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 38, 40, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims improperly depend from their independent claims for failure to limit the scope of the independent claims. By deleting the claims the rejection would be overcome.

Information Disclosure Statement

All the foreign documents and journals listed on the IDS filed 6/22/06 are not in the case. Applicant should note that WIPO does not provide Examining Authorities with copy of reference cited in ISR.
